

Associació DIGNITY.CAT works in Katuk where exists a generation gap that has been created by the HIV and AIDs epidemic in the last decades. Subsequently the situation has left behind a big number of orphan children who fell back into the care of their grandparents. The situation has further reduced the economic capacity of a community that is already affected by poor water supply, tropical diseases, food insecurity, cultural challenges, poverty and climate change impact.

Associació DIGNITY.CAT is a none profit making NGO (Nongovernmental Organization) working with vulnerable elderly persons and with children on education, social welfare for the elderly and addressing climate change impact.

We are registered in Spain in the city of Barcelona. We work with other Spanish local municipal social entities, the city Hall of Sant Pere de Ribes and our local affiliate, (Dignity Katuk CBO) at program sites in Katuk, Kenya.

OUR AIM is to assist orphans/vulnerable children on education. We work with elderly persons in poor life conditions in social welfare and promoting a life with dignity.
